

10TH PURLEY GUIDES – ICELAND 2010

The year 2010 will see the Guiding Movement celebrate its Centenary. To mark this momentous occasion the unit will be camping in Iceland for the week. This trip is an opportunity of a life time and tour is being arranged by Venture Abroad.

The Guides are being charged a price of £850 each which is heavily subsidised by donations that we have received for this project. We are relying heavily on the input from the guides and parents alike to assist in raising as much money as possible to get the price down!!

All the money that the guides raise independently will go into the 'main pot' and then split between them. This is a great incentive for everybody to bring in the cash!!

Naturally the girls will need to arrange their own fundraising events in addition to taking part in the unit coordinated ones. Due to the time scale involved we feel that each girl should be able to raise in the region of £200 each. If they can do this, the cost will already come down to £650!

Our aim is that this will be an unforgettable trip, every moment of which will be thoroughly enjoyed by each and every girl. It will also give them a great opportunity to meet Guides & Scouts from all over the world.

For the full tour details in please download the separate brochure.
